From the Principal

Assalamu Alaikum
Wa Rahmatullahi Wa
Barakatuhu
Firstly, I would like to
thank the production
team of AN-NASEEHA
for their hard work in
capturing the essence
of another very busy
year which can be
clearly seen by turning
over the pages of this
magazine to witness
the achievements of
the Islamic College of
Brisbane over 2016.
ICB is 21 years old this

year. Tributes to those who have helped the college get to this stage of its development will be fully acknowledged when ICB is in its twenty-fifth (25th) year. However, I am sure that those who have made a contribution over the years are looking on with pride to the way in which the college has developed to this stage. In 2016 ICB has an enrolment of 1036 students, 75 teaching staff and 21 non-teaching staff.

ICB has undergone significant changes to its management and administration structure over the last two years. Prior to 2016, ICB was one of the AFIC (Australian Federation of Islamic Councils) schools in a nationwide system. The other schools were Malek Fahd Islamic School (Greenacre NSW) with two other Campuses at Hoxton Park (Liverpool – NSW) and Beaumont Hills (NSW); the Islamic School of Canberra (ACT), the Islamic College of Melbourne (Victoria), the Islamic College of South Australia and Langford Islamic College (Western Australia). From the beginning, AFIC exercised centralised control through its constitution and the constitutions of the Boards of each of its member schools. However, the new Australian Education Act of 2013 required that each of the schools become independent of AFIC.

ICB is now responsible for its own Governance and today ICB has its own Board (ICBL) with two key Advisory Committees, CPAC (College Parent Advisory Committee) and the Finance and Infrastructure Advisory Committee. ICBL is now responsible for its own Financial and Administrative arrangements. There are now no AFIC signatories to the school Bank Accounts and ICBL has appointed its own Auditor and makes provision for its own insurance. In other words, ICBL is responsible for managing the Strategies, Policies and Risks associated with the future direction of ICB. The Principal is responsible for implementing this direction and is assisted in day to day operations by CPAC.

AFIC does, however, have one remaining function. AFIC remains the landlord because it owns the land on which the school is built and therefore ICBL pays rent at commercial value.

This shift has not come about without considerable effort on behalf of key personnel. I wish to pay tribute to Ismail Cajee (Board chair); Maryam Kissane (CPAC Chair), the College Senior Management Team (Mr. Shariff – Deputy Principal; Mrs. Ashraf – Head of Primary; Ian Martineau – Head of Secondary and Sharon Lam – Business Manager) and Orhan Camkara – ICT Manager for their significant contribution in achieving this new direction. I would also like to pay tribute to the remainder of the College Staff for the continued academic, social and spiritual development of students while this change has been taking place. My thanks also to the wider school community for their continuing belief in ICB at a time when the required changes attracted considerable media attention. Your patience while we have had to make infrastructure changes such as the Internal and External Roadworks and curriculum changes to become fully compliant with the Australian National Curriculum is acknowledged. The future of ICB is now assured. Therefore, what are the projections for the future? The College Architect (Kerry O'Rourke) has prepared a Master Plan for a future college of 2200 students and is in the final stages of preparation of a Development Approval to accomplish this. The first stage will be the construction of eighteen (18) new classrooms at the first stage of the New High School. This will be most welcome as our building program has been placed on hold while the required changes have been taking place. To the Graduating Year 12 class of 2016 I wish the very best for their future endeavours and to all a well-deserved break over the Summer Vacation.

Best Wishes, WasSalaam

Dr. RAY BARRETT
Principal

From the Deputy

Alhamdulillah! All thanks and praise be to Allah Subhano Taa'ala for his infinite mercy on us all the time.

It is indeed my pleasure to forward my message for AN-NASEEHA 2016. It indicates that another school year is fast coming to an end and the closing chapters of Year 6 and Year 12, Primary and Secondary education respectively. 2016 was yet another challenging and

eventful year in all spheres of college's life be it academic, spiritual, sports, extra-curricular, well-being and in media. As a family, the college was able to stand up against all odds and face up to these challenges with success. The teachers have left no stones unturned in giving the best of education to our children and we express our sincere gratitude to them for their untiring efforts. A lot of these are reflected in the pages of AN-NASEEHA 2016 as one browses through.

At present, like in most other schools, we are faced with challenges of developing a good sense of discipline and building strong moral values based on school ethos within the ever changing norms of the society. The school board, management team, the staff and College Parent Advisory Committee ((CPAC) are all fully focused in making inroads so as to make our college an even safer and better learning centre.

A child is a trust in hands of parents primarily. His pure heart is a precious gem. If he is taught goodness, and gets accustomed to it, he will grow to be happy in the world and in hereafter. If he is neglected, and gets accustomed to evil, he will be lost. Furthermore, it is also imperative on the parents to build self-esteem in one's child. Self-esteem is important because it is seen as a central factor in positive social and emotional adjustments. Children with high self-esteem are capable of making good decisions, are proud of their accomplishments, and willingly take responsibility and are ready to cope with frustrations. Also, they are more socially competent; they perform better in schools, and are more likely to avoid future serious problems such as school dropouts and drug use. Parents and family environment obviously play a critical role in the development of high self-esteem. When children feel they are listened to, taken seriously, and genuinely cared for, their self-esteem is high and that has a huge effect on their learning.

AN-NASEEHA 2016, largely reflects the achievements of very hard working children with high self-esteem. Undoubtedly, even greater achievements would be

possible when parents and teachers work hand in hand, build children's self-esteem and inspire them to take on greater challenges in their lives. ICB has achieved a lot in its twenty-one years of existence but undoubtedly, much more remains in our pursuits for excellence in all our endeavours in years ahead. As a team we sure can do it.

Producing a school Year Book involves a lot of hard work and commitment. The Chairperson and the magazine committee members are congratulated for their perseverance and commitment in successful publication of AN-NASEEHA, 2016.

At this juncture, I would like to express my sincere gratitude to our college principal, Dr Barrett; various stake holders-College Board, Governments and CPAC; Head of Secondary, Mr Martineau; Head of Primary, Mrs Ashraf; staff including our support ones; parents and well-wishers of the college for their tremendous support and cooperation throughout the year. To the Year 12 students, I wish to congratulate you all for the successful completion of 12 years of school life. I wish you all the best as you aspire to transit further to tertiary education. Finally, special thanks to our generous sponsors for the unwavering support this year and in the past.

ABDUL SHARIFF
Deputy Principal.

Chairman's Report

All thanks are due to Allah (SWT), the Lord of the worlds, and peace and salutations upon His messenger Muhammad(PBUH). I thank Allah SWT for giving me the opportunity to serve as your Chairman of ICB. The Islamic College of Brisbane is the largest Islamic school in the Brisbane region. It currently supports over 1000 students from year 1 to year 12. Historically, the school has developed and nurtured an excellent crop of students and this year was no

different. I am proud of this year's academic achievements, which has cemented our college as one of the outstanding academic institutions of its kind in Queensland.

I have now served as Chairman for just over a year and am proud that, with the help of the Almighty, we have managed to weather severe storms to place the school on the right path towards long term sustainable success. As most of you are aware, our school faced significant challenges during 2016, mainly related to a "show cause notice" issued to the school. To align the school to the requirements of the Education department, we have had to change the governance, financial and operational structure of the school. This we have done successfully. In particular:

- The school has cut the umbilical AFIC cord and is now operating as a completely independent school. Your school now has a new Board of highly qualified individuals who are actively participating in the affairs of the school.
- We have improved the financial functions of the school to improve controls and processes. A dedicated business development manager now oversees critical reporting and governance functions.

Having resolved the issues plaguing the school, the Board and I as Chairman are confident that we have a sound foundation to grow our school and nurture the next generation of Muslim students. A key focus is to now put in place the right strategy to take our school forward. As Chairman, I invite community members and stakeholders to participate and contribute to the future of the school. It is an exciting time for all of us.

Head of Primary

This year has brought forth many challenges for the Primary School including curriculum planning. At our very core, we believe that every child is unique. Since last year, our teachers have been working tirelessly on their planning to provide for individual children, acknowledging that they learn at different rates and have different learning styles. I would

like to take this opportunity to thank Ms Lynda Rifai and Mrs Zeena Ackland who have been leading the teachers to plan in accordance with the mandated requirements of the Australian Curriculum. I would also like to acknowledge the work put in by our Primary teachers in planning, implementing and assessing students' outcomes along with improving their teaching strategies. During the year, our Primary staff were engaged in several professional learning opportunities to develop and extend our skills, as educators, to design learning tasks that allow learners to better demonstrate their understanding. As we focus on each child developing to their potential and we strive to provide the best education programs possible sometimes, we are too preoccupied with marks. Within this highly competitive environment, students may forget that they come to school, not to get marks, but to learn. In our rapidly changing world, the most important skill will be learning how to learn and how to re-learn, sometimes working independently on our own and sometimes working collaboratively with others. Every child has his/her own distinctive attributes. It's our job to help them discover and grow those attributes so that they can become the very best human being they are capable of becoming, who will help to make the world a better place.

Interactions that occur daily among students can generate conflict that may adversely affect teaching, learning and school effectiveness. Conflicts arise in the classroom, library, school bus, playground, while standing in line, and any place where children gather. It occurs when people have different needs or views of a situation. Teasing, exclusion, friendship problems, rumours, property issues, fighting are usually common conflicts in schools. The ways that we (teachers, parents, carers) respond to children's conflicts have powerful effects on their behaviour and skill development. Effective conflict resolution requires children to apply a combination of well-developed social and emotional skills. These include skills for managing feeling, understanding others, communicating effectively and making decisions. Children need our guidance to learn these skills. Learning to use these skills effectively

takes practice and maturity. Guiding children through the conflict resolution steps helps them feel involved. It shows them how effective conflict resolution can work so that they can start to build their own skills. For any conflict situation, we urge parents not to take it upon themselves to reprimand other students. If incidents occur, parents need to contact the classroom teacher or management who will attend to the concerns. Parents, carers and teaching staff can help children to see conflict as a shared problem that can be solved by understanding both points of view and finding a solution that everyone is happy with.

In conclusion, I would like to thank everyone for a great year. I also would like to acknowledge our parents for their support and for entrusting us with their children. Most important of all, I thank our Primary students for doing their best, getting involved, contributing and striving for improvement. I wish you all a relaxing and reinvigorating break and look forward to seeing you in 2017, Inshallah!

MRS RUKHSANA ASHRAF
Head of Primary

Head of Secondary

Long ago (about twelve months) in a faraway land (Malaysia) a young educator (maybe not so young) saw an advertisement for a Head of Secondary School at the Islamic College of Brisbane. He had seen a number of similar ads for similar positions at established and better known schools. What attracted our not-so-young educator to the ad was that there was a

real opportunity to lead other educators in shaping school improvement. In an established school he may have been stepping into someone else's shoes. I am afraid that is where the fairy-tale ends. Whilst ICB offered opportunity, it also offered significant challenge. Fortunately, our young educator was up for the challenge and recognised that Rome was not built in a day. Flash forward twelve months and the journey is well underway. Many of the challenges are still there but solutions are being created.

Schools are inherently complicated places. The stakeholders are numerous and, quite rightly, place great emphasis on the importance on high quality education. School leaders have to juggle the sometimes conflicting expectations from the various stakeholder groups (students, parents, teachers, government etc). It is therefore vital that school leaders have a clear vision for their school. Much of the first part of 2016 was spent conducting a 'renovator's audit'; what do we keep, what do we get rid of and what do we change? Central to this process was creating and reinforcing the vision for the College. We aim to be a high functioning Islamic Independent School. At the June CPAC meeting I presented some of our plans. Central to that presentation was our first attempt at creating a 'Learner Profile'. Two of the five areas of that profile were Academic (Personal Best, Intrinsic Drive and Alternative Pathways) and Social Emotional (Well-Being, Social Skills and Resilience). Whilst the other three areas (Spiritual, Physical and Citizenship) are moving forward but Academic and Well-Being are the two areas where we are further advanced.

Whilst there are some very practical strategies that we have already implemented to improve Academic outcomes; alternative pathways, career education and using data to inform practice are all innovations that have been introduced. The strategy that we feel has the greatest potential, is the recognition that a common teaching and learning framework was necessary for consistency. Research shows that there is greater difference in student outcomes within school than between schools. We have already had two workshops

leading to ICB becoming a Visible Learning School. These workshops have included both small groups of Primary and Secondary staff and in January the entire teaching staff will be taken through the Foundation programme as the start of our 'whole school' journey. Professor John Hattie's work on what really makes a difference to student outcomes, is very powerful and grounded in extensive research.

Our Well Being journey started with a survey conducted via University of Melbourne. The data from the survey laid the foundation for engaging a consultant to guide our progress. We are now at the point of developing resources for 2017 that will support the Achieve programme and be specific for each year group.

As I said in the opening paragraph, Rome was not built in a day. Cultural change takes time and by cultural change I refer to the academic culture of the Secondary School. We are putting in place structures and strategies to ensure the best outcomes for each student. The future looks positive for the Secondary School with planning well advanced for our first Secondary classroom block and the initiatives outlined above well advanced.

MR. IAN MARTINEAU
Head of Secondary

School Leaders

Admin

2016 LEADERS: SAIRAH, AZEEZAT, EBRAHIM AND AZEEZ

Primary Prefects: Sidney, Zeinab, Haniya, Mariam, Daania and Mohammed

CPAC

College Parents' Advisory Committee

The College Parents' Advisory Committee (CPAC), our school's parent representative body is a vital part of the school community and plays a valued role in helping achieve our school's aspirations and goals.

CPAC is an active group of parents and friends of the school who co-ordinate a range of key activities and initiatives that directly support the school. It is an elected representative body of parents and interested individuals.

CPAC meetings are attended by:

Parents and teachers
Principal and Deputy Principal, Head of Departments
School Board representative
QPS representatives
Local and state government representatives

Specifically, the CPAC's objectives are to:

Promote fellowship among the parents of students of the Islamic College of Brisbane
Promote interest in the educational activities of the Islamic College of Brisbane
Raise funds for amenities and facilities for the student and teachers of the Islamic College of Brisbane.

The committee meets monthly, typically the first Sunday of the month in the school term and is open to all. CPAC's Annual General Meeting is held in February each year. Each parent and guardian of a currently enrolled student is automatically a member of CPAC and will receive an emailed notice of the AGM at the start of the new academic year.

The Executive Committee elected in February 2016 includes:

CPAC Executive 2016

Chairperson	Maryam Kissane
Deputy Chairperson	Naila Hussain
Treasurer	Osman Rane
Teacher Liaison Officer	Zeena Ackland
Secretary	Jahanzeb Rahman
Public Relations Officer	Naima Estrada
Fundraising Officer	Sharon Knauseder

The success of CPAC relies heavily on the involvement and commitment of the parents of the ICB school community. We need your continued support to help to achieve our goals for 2017 academic year.

How can you get involved?

CPAC values the rich diversity of skills and experiences that each family brings to the school. We appreciate any help that families are able to offer.

If you would like to get involved, please complete the registration form: <http://goo.gl/forms/n3sWPNxd4O>
Parents who provide an email contact to the school's administration are notified by email of upcoming

meetings with a copy of the proposed agenda. You can also find out when the next meeting is scheduled by looking at 'UPCOMING EVENTS' on the ICB Website HOME page or the ICB Facebook page. Meetings follow a prepared agenda; however, there is always an opportunity to raise a matter from the floor of the meeting. The meetings are consultative in nature and the decision making process is nearly always one of consensus. Submit an Agenda Item If you have an issue you would like to raise at the next CPAC meeting for discussion under "General Business", please feel free to complete the following form: <http://goo.gl/forms/l0qsF6OVCa>
During this academic year, we have carried out a number of fundraising activities including two successful Movie Nights and provided tuckshop at the ICB Athletics Carnivals. We have also supported initiatives within the school community including the introduction of the EcoBins and the Buddy Bench. We are proudly subsidising the cost of excursions in Primary School to ensure that our teachers can focus on the task of teaching rather than fundraising. The introduction of CPAC Awards in the 2016 End of Year Award ceremonies is another example of our commitment to the school community.

We hope to continue our work with the Board of Management to assist with the development of a Master Architectural Plan for ICB incorporating the construction of the new secondary building and a new Upper Primary playground. Our Bi-annual School Fete will be held on April 30th, 2017 and all funds raised will be donated to the cost of the long awaited Upper Primary playground.

Year 1 D Buddies

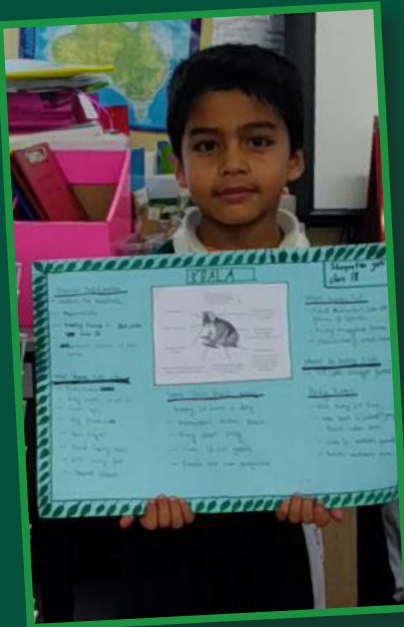

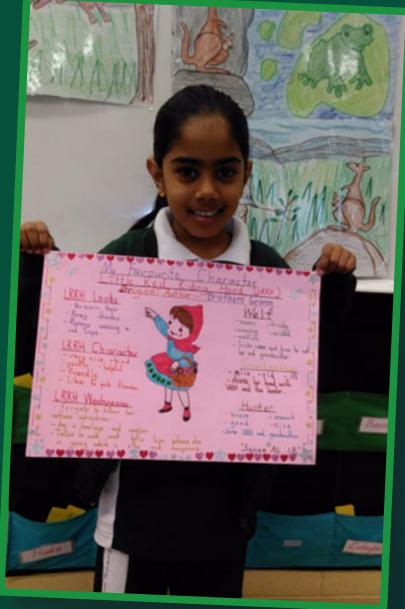

English

Class 1B displayed their finished guitars. They drew a picture and labelled the recycled materials they were going to use to make their guitar. Our students had lots of fun presenting their creatively made music using these guitars to other Year 1 classes.

Shayonton Joti from Year 1 completed his animal information chart and presented lots of interesting facts on Koalas. He became the expert about 'what koalas eat' 'what koalas look like' 'where koalas live' and 'about koalas young'.

Sanaa Ali had fun presenting information on her favourite character 'Little Red Riding Hood'. We learnt all about Little Red Riding Hood's personality and what she looks like during her oral presentation.

Learning about solid and liquid in Science. We are making cookies to see how the liquid will change into solid.

Maths

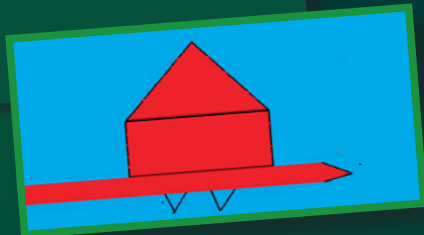

Knowledge 2A

On the following week Micky had an idea.
She said "How about we put the house on a
rocket?" They put drums under the house and
rolled the house on a rocket

But the rocket broke down because the house
was too heavy.

They chucked some things of the house and
then the rocket started to work because it
became light.

by Ibrahim Taufik 2A

Poem Reconstruction of the poem
"A Boy Went Walking"

A Baby Went Crawling

One evening a baby went crawling
and crawled into a gym.
He lifted a pound of weights
And gave it to his friend Kim.

The baby started to cry,
he cried up a tune.
And all the gym people
Exercised around the room!!

Mohsin Daud Ahmed- 2A

DOLPHIN WENT DIVING

One evening a dolphin went diving,
And dived into the sea.
It caught a pound of yummy fish,
And ate it as a dish.

The dolphin began to cackle and giggle,
As its tummy began to wiggle.
And all the fish started to wish,
They weren't in a yummy dish.

Hareem Fatima- 2A

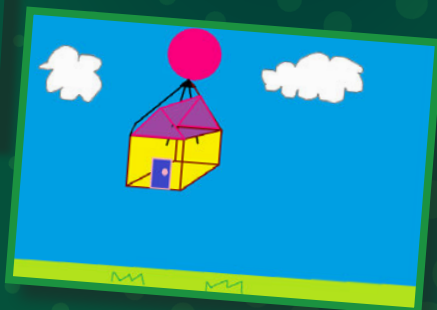

The following week, Micky had an idea "let's
try having a big, purple hot air balloon to get
to the dock". "It's not that bad. Let's try this"
said Dad. So the Fairweathers agreed to what
Dad said.

Suddenly while the Fairweathers tried the
idea the hot air balloon became more light
every moment. And then the hot air balloon
burst up. Dad said "OH NO what are we
going to do"! "It's no use" said Mum. So the
Fairweathers cleaned up the mess they made.
"However are we going to get our house
back?" cried Mum.

"We'll try again next week" said Dad. The
Fairweathers felt depressed, gloomy and
sorrowful. By Sanaa 2A.

Earth Acrostic poem

Enormous at times
All the time spinning
Remarkably full of water
Trees everywhere around
Healthy animals and green trees
Sanaa Zaheeda Yusuf-2A

A group of approximately 20 children and two adult women are posing for a group photo in a school hallway. The children, mostly boys, are wearing green school uniforms with white collars and cuffs. Two girls in the front row are wearing white hijabs. They are arranged in three rows, with some standing and some kneeling or sitting in the front. The background shows a white wall, a doorway leading to another room, and a blue storage unit. The lighting is bright and even.

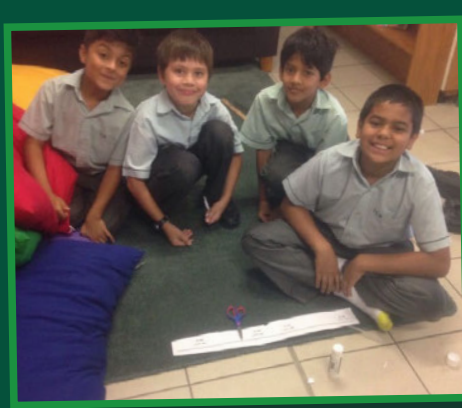

Knowledge in 3D

Year 3 was a fun we learnt lots of new things. We had lots of excursions and incursions. The best was our visit to Sea World. We went on rides and also read about animals. I health we focused on eating healthy food and we even ha, and our Terrific Tuesday Apple Trophy, where each class won the trophy if they had the maximum number of fruits. Our class won the apple trophy many times. Our class also won the Eid decoration competition.

In science we read about plants, animals leaf and litter. It was a fun filled year.

Zara Ilyas
3D

Knowledge in 4B

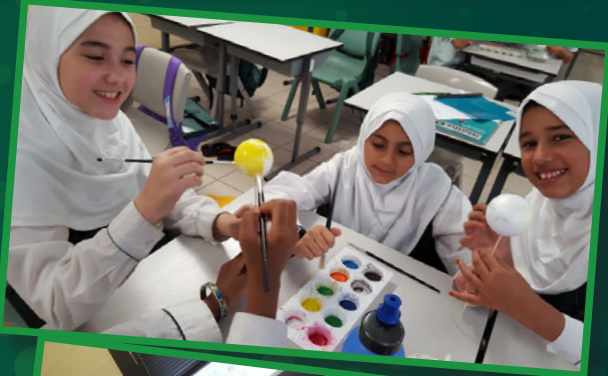

Knowledge 5B

Knowledge

Breakfast cereal Investigation

In term 3, 5B participated in a breakfast club for our IMaths Investigation. We had a lot of fun because we were able to eat lots of yummy and healthy cereal. We also had a competition for whoever had the most beautiful table.

Science investigation - Orrery
In term 1, we made Orrery's for science. We painted Styrofoam balls to make the Earth, Sun and Moon. We then placed these in a box, connecting them with sticks to show how they orbit each other. It was a lot of fun!

The Golden Bin

Keeping our school clean is very important because cleanliness is half of our faith and one of our school values.

Each month, the cleanest classrooms in the primary school get awarded the golden bin for being very neat and tidy. The golden bin is a special trophy that the class gets for being the tidiest. It is judged by the students of our Primary Environmental Committee and Mrs Goindi.

To receive the golden bin we need to put the right rubbish in the right bin, keep our classrooms tidy and we even need to be saving electricity to help the environment. Next year we hope our school continues to work hard to be cleaner and greener place for everyone to enjoy.

By Sumayah Goss and Idris Shamshir, 4B

Upper Primary Athletics Carnival

On the 25th of August, year 3 -6 had their Athletics Carnival at the QEII Stadium. It was extremely fun to participate in a variety of sports activities. The activities lined up for the day included Sack Race, Long Jump, Captain Ball, Leader Ball, Shot Put etc.

The day started off with the Morning Dua followed by March Past. Then we got split into our age groups and followed our teachers to the first activity. As the day went on we got ribbons for participating in the different sports. Then we prayed our Duhr Salah on the grass which was followed by 2 more events.

At the end the winning House was declared. The Yellow House was First, Red Came Second and Blue was Third. We thoroughly enjoyed the day and showed our sportsman spirit all day. So it didn't matter who came last or first as long as we had fun!

Ayman M., Selim G. and Omar Y., 5C

Lower Primary Athletics Carnival

On 21st July this year it was our Athletics Carnival at school.

First 2B did the Egg and Spoon race. Next we did Shot Put and then we went to Tug of War. After that we went for morning tea. When we came back after morning Tea we did Long Jump and then Over and Under. We were enjoying the sports and participating well.

Later we did busy bees followed by Sack race and Long Jump. We also did Captain Ball before we headed off for lunch.

Finally, in the last session we played Tunnel Ball and watched Relay Racing. We all felt really happy but also very tired by the end. The Red Team Won and we congratulated them.

The 52 Story Treehouse Experience

On the 15 of June 2016, 25 lucky students from Grade 5 & 6 had the opportunity to visit the QUT Gardens Point Theatre with Mrs Rifai and Mrs Khan. We watched a live show based on the children's book 'The 52 Storey Treehouse' by Andy Griffiths and Terry Denton.

The main theme of the play was about two best friends and their adventures in their treehouse. Andy and Terry, the best friends, were investigating the crime of the missing Mr Big Nose (their publisher). When Andy and Terry sought help from their friend Jill, they found her in an enchanted sleep and she had to be rescued from the Vegetable King. It was an amazing play, which all students and teachers enjoyed.

After the play, we visited The Cube in the Science Centre. In The Cube were a series of different interactive screens, including the Dino Zoo, which is a virtual dinosaur world. As well, the virtual reef, which is a virtual version of the Great Barrier Reef with information about the fish and other animals that live there. At the end of the day, we were all exhausted but it was worth it as we all had lots of fun.

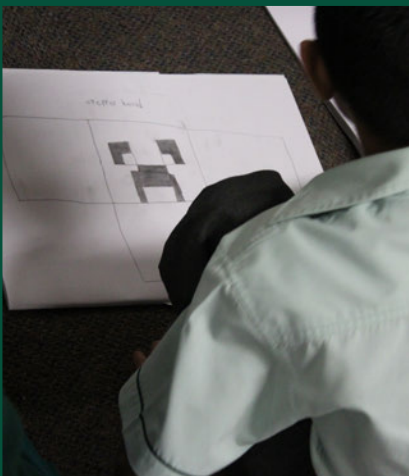

We would especially like to thank CPAC who helped to fund this event.

By Sarah El Hanandeh and Aisha Gardner 6C

Book Week Author Visit

Primary school students had special visits from authors or story tellers as a part of their celebration to Book Week. Prep and Year 1 were held captivated by the stories from Nadia Sunde, Year 2 to 4 heard from Katherine Battersby and Prue Mason dazzled Year 5 and 6.

Book Week Character Parade

This year, the Book Character Parade was full of colour and imagination with creativity in each of the costumes. With everyone dressed as their favourite book character, it was easy to see the excitement and fun of Book Week.

Book Week Performance

Primary school students had special visits from authors or story tellers as a part of their celebration to Book Week. Prep and Year 1 were held captivated by the stories from Nadia Sunde, Year 2 to 4 heard from Katherine Battersby and Prue Mason dazzled Year 5 and 6.

Harmony Day

On the 21st March each year, Australians nationwide, join forces to celebrate our hundreds and thousands of cultures and traditions making us who we are. This year's theme for the event was 'diversity is our strength', symbolising the importance of unity in society. Not only was this a spectacular day on its own, but the Student Representative Council (SRC) decided to combine the annual event with a joint Harmony Day and Anti-Bullying assembly in conjunction with the College Guidance Officer and Head of Secondary. With 'The national day of action against bullying and violence', taking place on Friday 18th (the week before) we took advantage of the assembly to highlight the effects of bullying whether it be verbal, physical, emotional, spiritual or mental and the negative impacts they have on self-esteem, social and mental health. The underlying message we aimed to portray to all the students and staff members was that, as a collective, we could not coexist as a racially, ethnically or religiously diverse community with the presence of bullying, violence, racism or discrimination. As a result of this the SRC organised a student nationality presentation

where 2 students from over 25 different countries were nominated to introduce themselves and speak about what they liked most about their background nationality; first in their native language, and then asked to translate it. The differences in the many cultures were very clear not only in the way they spoke, but also in the way they dressed and the food they ate. The outstanding speeches from the Head of Secondary, Guidance officer, Prefects, Captains and respected Imams all had one common message... *'There is no room for bullying at ICB if we are to succeed and progress in harmony and peace.'*

School Captain

Leader Induction Ceremony

Author Visit

On Wednesday, 24th of August, Katherine Battersby visited our school to talk about her books.

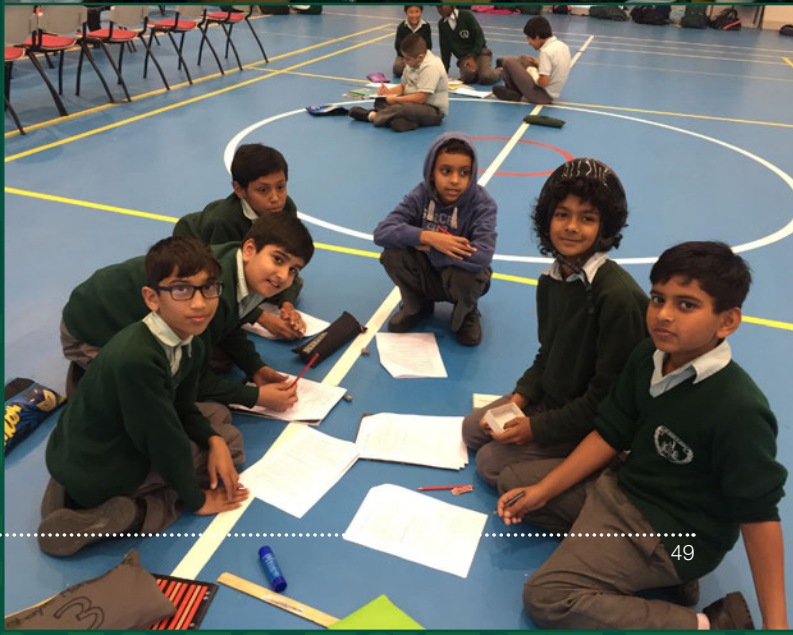

All year 2 students and teachers waited for her in the Multipurpose Hall. Soon she arrived and introduced herself. She showed us her books and told us that she has written 'Squish Rabbit' and 'Brave Squish Rabbit' and had recently finished writing 'Little Wing'. Then she told us about her childhood and how cheeky, loud and annoying she was as a child.

After that she showed us the picture of her first drawing and the book she wrote but it was not published. That book was just for fun but then she kept on trying until she got better at it. She read 'Squish Rabbit' and 'Little Wing' to us and we enjoyed listening.

Finally, we all helped Katherine draw a giraffe monster. It had 10 tentacles, 3 heads and many eyes. I named it the 'Drag-gir-pus'. Lastly all year 2 classes took pictures with Katherine.

It was an informative day and I learnt many new things. I learnt that one must keep on trying until they get better and you need many good drawings to explain your story.

Environmental Day

On the 27th of July, ICB held its first ever environment day assembly. This marked the beginning of a new chapter in our school's history making it an official day to be recognised at our school for the years to come. The Environment day assembly started off with Shayma Nejari giving a speech on the importance of keeping the environment clean and not wasting water and electricity. She also talked about how we can improve our school's state of cleanliness by starting small and ensuring we place our rubbish in the bin and do not waste electricity and water, as the statistics Shayma presented us with of the amount of money our school spends on water and electricity were definitely shocking. Following Shayma's speech, Mohamed Gorashi presented the school with a video where he, alongside Enes Meduselac and Arib Tayib interviewed students and teachers and asked for their opinions on the school's current state of cleanliness.

After the assembly, we were fortunate enough to have small groups of year 11 and 12 students appointed to each form class for interactive games that taught us about the importance of the environment. Some of the games played in the classes were: environment vocabulary hangman, sorting between paper and general waste and creating the tallest item using only recyclable materials. However, none of this could have been possible if it wasn't for the help of Ms Wong, who took time, effort and dedication to ensure that this day would go well and that fun activities were to be organised for the students. The day concluded with free cakes and drinks for students and teachers who brought reusable containers and bottles. On behalf of the school I would like to thank CPAC and the student volunteers for baking the cakes.

YOUTH WEEK

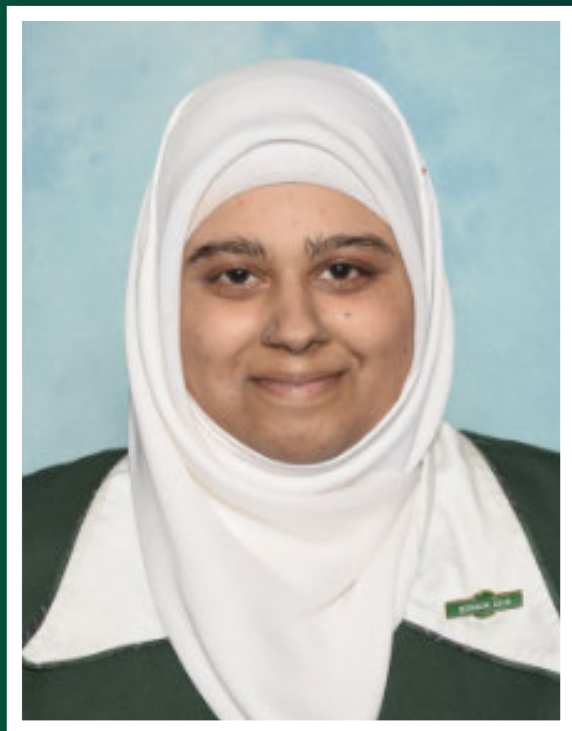

CELEBRATING THE YOUTH OF ICB...

16TH - 20TH May

BE THE FUTURE

Excerpt from 'Arisha Ahmed's Diary': A test of strength and truth. by a Year 12 ICB student, 2016.

I knew something was wrong when I saw the doctor's expression.

I felt scared of the word cancer; afraid of the unknown ... Everything changed that day Ewing Sarcoma, a cancer in my left shoulder.

The Central Venus Line was put into the right atrium of my heart, but the hardest thing was the loss of my hair after three cycles of chemotherapy. I would stand in front of the mirror for hours just trying to picture what I used to look like ... the fluid in my face .. I had lost colour

... Juggling school work and the treatments. It was hard. I wanted to graduate with the people I had grown up with ...

Throughout this journey, I had lost friends ... I accept the fact that I have to go through this. I'm not in a worse condition like other children in the hospital.

Overall ... this has brought my family together. I'm thankful to my teachers for their support.

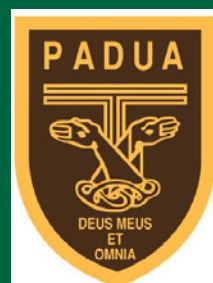

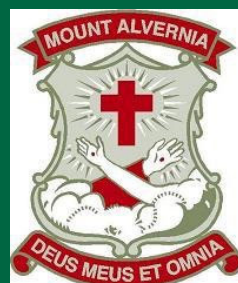

Padua and Mt Alvernia College meets ICB

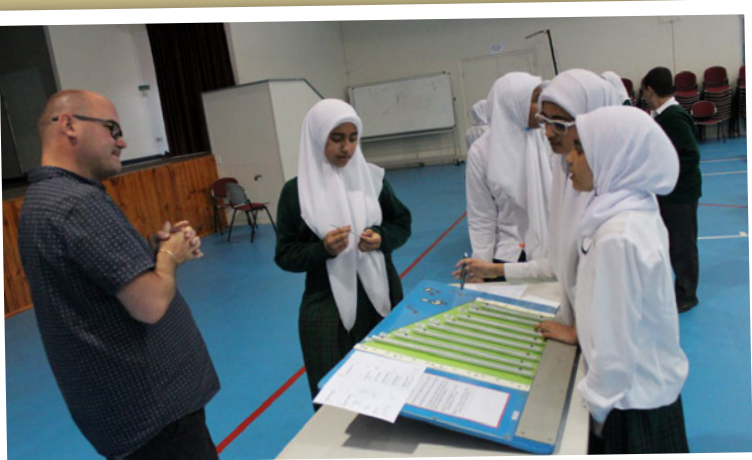

At the Islamic College of Brisbane, we pride ourselves in our many connections and affiliations with several public and private schools such as John Paul College, All Hallows High School, Brisbane State High, Brisbane Christian College, Stretton State College and several other state high schools. One of the many ongoing traditions at the ICB, are the annual visits from Padua and Mt Alvernia College through friendship and mutualism bonds and this year we were blessed with the presence of over 100 of their students. On the 27th of April, we provided both schools with the opportunity to learn and gain as much from us as we did from them, last year, when we visited their colleges in the heart of the city.

Hosted by vice captain, Sairah Rehman, our presentations ranged from a debrief on the history of ICB and its events, by college captains Azeez and Azeezat Bodija, to an inspirational speech by Imam Riyaaaz, highlighting the importance of peace and harmony within wider communities and insightful reflections of Islam and Australian muslims by Mr Simpson. Through the senior girls' hard work with the Islamic department and its staff members, we were able to show the students from Mt Alvernia, the different types of Hijab, giving them the opportunity to try on 'niqaabs', 'abayas' and 'jilbabs' in what proved to be educating and humorous for all. Aside from this, we also had presentations on these topics as well as the concepts of Halal and Haram and the different cultures in Islam. The overall highlight of the day was the bbq lunch we shared together, that proved with all our differences and similarities we met in the middle, once again, with our love and appreciation for good food.

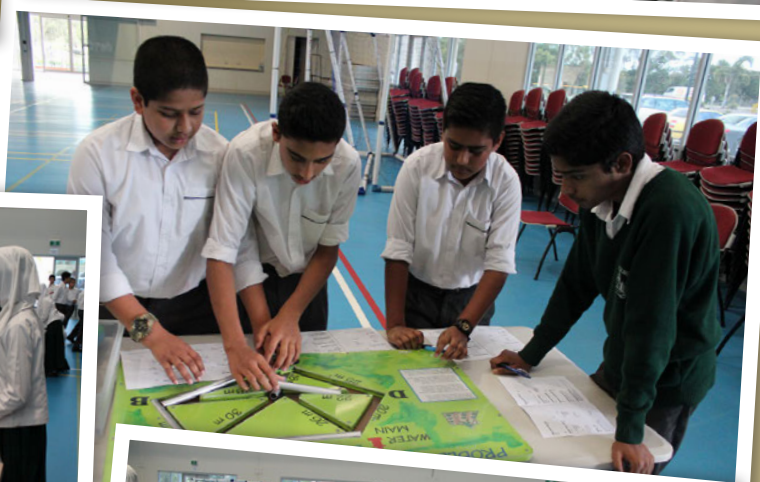

On behalf of the Islamic College of Brisbane we would like to thank Mt Alvernia College and Padua College for their ongoing support and friendship with our community. Thank you for hosting and visiting us each year, we appreciate all your efforts and we predict our friendship will continue to flourish in the many years to come.

ANZAC Day

TAKE A MOMENT

Let's take a moment of silence to think,
Of all those soldiers who laid their lives on the brink,
And those who lost a foe, family or friend,
We will stand alongside them until the very end.
For the men from dawn to dusk, would fight,
For the women who would walk, from day to night,
For the children left orphaned amidst the war,
In fear, watched their fathers walk out the door
Then came the wonder, the fields of red,
A reminder of all the tears and bloodshed,
Amongst the dark, a glimpse of light glows,
In Flanders field, the red poppy grows.
As the sun rises, with all of its glory,
With the ANZAC day march, we remember our history,
To the ANZAC's, the nation is truly in debt,
For their sacrifice,
LEST WE FORGET.
Aleisha Karfizi 7A

WE FORGET

New Zealand National Anthem

E ihoa Atua,
O nga iwi! Matoura,
Ata whakarangona;
Me aroha roa.
Kia hua ko te pai;
Kia tau to atawhai;
Manaakitia mai
Aotearoa

God of nations at thy feet
In the bonds of love we
meet.
Hear our voices, we
entreat,
God defend our free
land.
Guard Pacific's triple star
From the shafts of strife
and war,
Make her praises heard
afar,
God defend New Zealand

Fire Safety

Year 1 received a special visit from the firemen to teach us about fire safety. We got to explore their big, red fire truck and learnt how all their tools can help save lives.

New Recycling Bins

Our new classroom recycling bins!

It's official! Most of our ICB classrooms now have amazing, eco-friendly bins and it's all thanks to CPAC and the funds they raised at the college movie night held earlier this year.

Each class has been given 2 new bins each, a red one for general waste and a blue one for paper and cardboard recycling. The bins were purchased from an Australian company called 'Ecobin'. They are made in Australia from durable, corrugated plastic and best of all they have a lifetime guarantee and are certified Carbon Neutral.

We have now set up paper and cardboard recycling throughout the school and our new bins have made this task much easier. Thank you CPAC!

Debating

Once again ICB competed in the 2016 Queensland Round Robin Debating Tournament which saw 2 Year 6 teams compete in 4 debates, against many different schools. The members of team 6.1 were Mariam Deya, Zeinab Deya, Khadra Nor, Ammara Ali and Fatima Al-Soudani and the members of team 6.2 were Sumaya Elsayed, Aisha Gardner, Musarrat Khan and Sana Nasir. These students use their own time to work on their debates and regularly meet with their coach teacher after school. These students have shown dedication and commitment and are to be commended for their effort. A big thankyou to Ms Katie Stephenson for all her help and coaching with the members of team 6.1.

Ms Gillian Flick

Environmental Committee

Our Primary School Environment Committee has shown incredible effort this year to make our college an environmentally friendly zone. They have helped organise a number of events throughout the year including Litter-free Lunches, class cleanliness inspections, Spread the Word Challenge and our Thursday Clean-Up Club. A huge thank you goes out to all of its members who have dedicated themselves to caring for our school environment. Well done!

ICB Clean Up

On 7th March 2016 , we celebrated the Clean Up ICB day. Our teacher divided us into groups. We were provided with Gloves, bin bags and hand sanitizers. We were designated a small area and we went and picked up rubbish. Our school looked so clean after that. I wish we had Clean Up ICB day every week so that our school looks clean and tidy.

Ann Gorashi

Litter Free Lunch

Every Tuesday in our Primary school is Litter-free Lunch Day. This year it has been fantastic to see more and more students bringing in litter-free lunches, especially amongst some of our junior school classes.

We have been holding Litter-Free Lunch Days since 2014, in the hope to reduce rubbish around our school playground. Students in our Primary Environment Committee visit classes every Tuesday to tally the number of students who bring a litter-free lunch to school. Each student who brings a litter-free lunch gets a point for their

class. The class with the most points each term wins. Class 5D has been super successful this year, winning terms 1 to 3 with almost every student bringing a litter-free lunch to school. Well done 5D and Mrs Knauseder! Litter-Free Lunch Day is here to stay and we hope to see more and more students bringing healthy litter-free lunches so we can keep our school grounds super clean.

Primary Quran Competition

Primary Assembly

Grade 6: Special Guest Speakers

Memorable Visits

In Term 1, the honourable Mr Graham Perrett, Member of Parliament for Moreton, visited our College to address us. He talked about the way Parliament works and the law making process. We discussed the different parliamentary systems that influence the Australian Parliament. Mr Perrett told us what the politicians talked about during question time and how they have to read a lot to keep them informed. It was interesting to know that Mr Perrett was a teacher before he became a lawyer and then he went into politics. It was an enjoyable experience to meet someone as important as him.

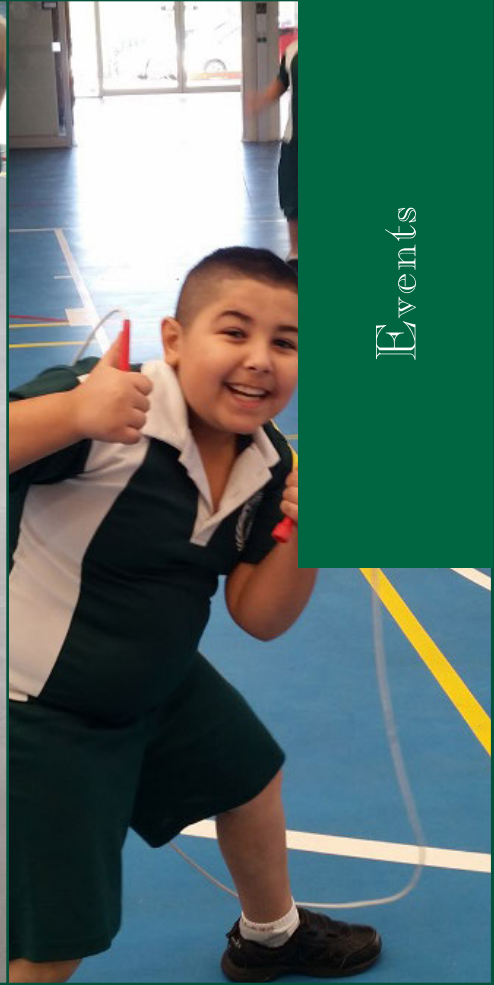

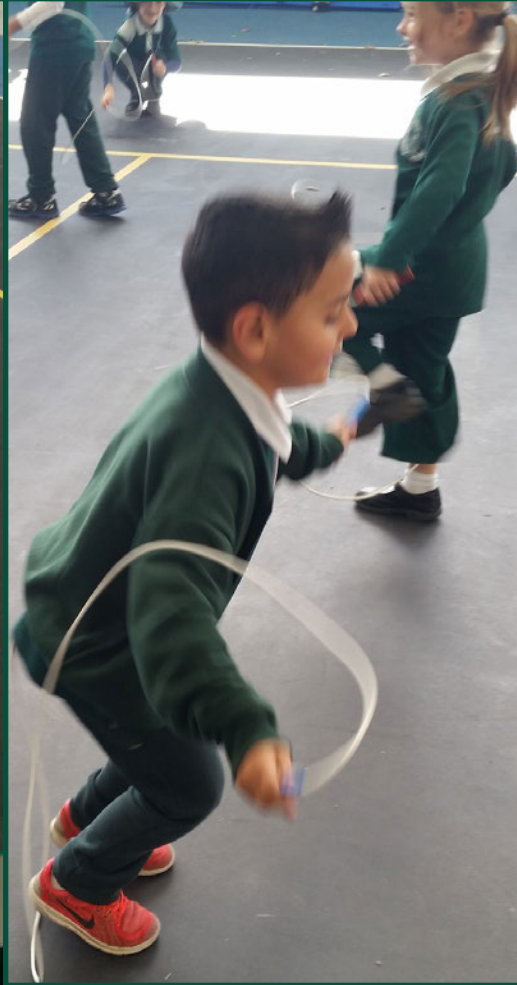

The other important person who visited us was in Term 3 was Dr Nora Amath. She is a prominent Queenslander with Vietnamese heritage. In History we learned about the contributions of migrants to the Australian society. Dr Amath is one such migrant who was a refugee from Vietnam and after growing up in US, she married an Australian and now lives here. She works with many multicultural organisations and she inspired us with her story. She told us to be what we want to be and never let anyone tell us otherwise. We were delighted to have her at our school.

Jump Rope

National Schools Tree Day

On July 29, ICB students from Primary and High school took part in the Planet Ark National School Tree Day. In total, we planted almost 50 native plants to beautify our school grounds. The day was a huge success thanks to the efforts of our ICB school maintenance team who dug and prepared the soil for planting.

This is the third year running, that ICB has participated in National Schools Tree Day in an effort to care for our college environment and make it a cleaner, greener place.

OUR CLASS CAPTAIN TREE PLANTING

In August, we planted a tree with all the other Class Captains in Year 3. Class captains are people which are responsible, honest and a good example to the rest of the class.

Mrs Aida the Year 3 Teacher Aid collected us from while we were on our way to the computer lab. She had all the class captains of year 3 and some kids from Mrs Unicomb's class.

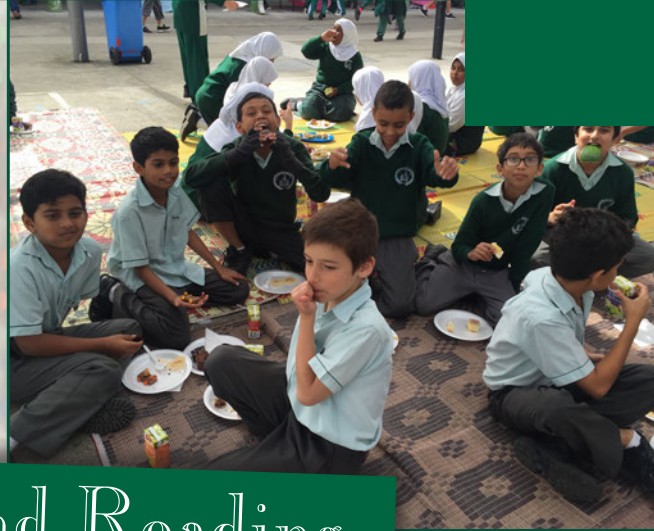

First we met Mr Robin in front of Bay 2. It was a little bit hard to get the plant out of the plant pot so he took it out for us.

We dug up a hole and put the plant in. Next we watered the plant, the watering can was heavy so one of us could not carry it so the other did. Then we covered the plant.

We really enjoyed the experience of planting a tree.

Ramadan Picnic and Reading

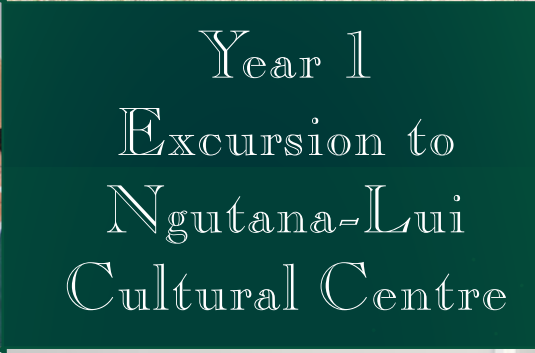

Prep Excursion Lone Pine Koala Sanctuary

On Friday 17th June, the Prep children visited Lone Pine Koala Sanctuary to further their understanding of Australian animals. During class they have been learning about different Australian animals and what they need to survive and their habitats. A guide from the Sanctuary talked to the students about different animals. The first animal she brought out was a frog, where she explained how they live and how we should care for them. She then brought out one of Australia's reptiles, a Shingle Back lizard. The children were very pleased when she said they could feel the lizards scaly back. They were very excited when the guide brought out the last animal, a koala. They loved how soft the koala's fur felt. They learnt what they eat, how they survive in the wild and how the Sanctuary staff looks after the koalas. Some children were lucky enough to see the 'Birds of Prey' show, where they learnt about owls, eagles, falcons and kestrels. The petting park was by far the best place to be, where the children were able to interact and feed the kangaroos.

Incursion
Firemen Visit

Year 2s Trip to the Botanical Gardens

On Thursday, 2B went to the Botanical Gardens at Mt-Cootha. Everyone came really early in the morning and we were very excited. Our teacher, Mrs Khan did the roll call and told us all to line up and get in the bus.

On the way we saw South Bank and we went over a long bridge. At Botanical Gardens we met with the teachers who were going to teach us about the Botanical Gardens. We got to make soap out of leaves and we got to smell the colourful flowers. We also tasted jam and honey and it was delicious.

Finally, it was time to go back to school and some of my friends were sleeping on the bus. We had a great day!

By: Aleena Junaaid and Zakaria Mustafa 2B

Year 2 Incursion: Rocket Science

On Thursday 1st of September, our class met two scientists in the Multipurpose Hall upstairs. Their names were Science Steve and Science Ashleigh.

First they introduced themselves and Science Steve told us that he is very passionate about making rockets. Then he taught us what motion and friction was. Next he told us to go to a table, use markers and decorate our OWN ROCKETS! When we were finished, we sat down.

Then he taught us to make propellers with a strip. After that we put on our safety goggles and went outside. We put some water in our rockets and Science Steve gave us 'rocket fuel'. When we put the fuel in, the rockets blasted off in 10 seconds.

Finally we gave our goggles back and they gave us a wrist band and the recipe of the rocket fuel. It was so fun but I felt a little bit tired.

By Afiya Amina Tarik 2D

"5, 3, 4, 2, 1...BLAST OFF!!" Did you ever want to blast off a real rocket?? I am sure you did and we in Year 2A, actually blasted off real rockets!!

In Science we learnt about Push and Pull forces. At the end of the unit, a man called "Science Steve" visited us from Street Science and showed us cool ways to make rockets. We made small plastic rockets and coloured and then we set them off at the top oval. You just need a tiny bit of rocket fuel and wait for 30 seconds to see it blast off in the sky. I felt so happy to see my rocket fly so high!!

Nafez Hijazi-2A

Year 3 Incursion Big Bang

In Term 2 Grade Threes had their Big Bang Incursion. It was a science Incursion where we were divided into groups and were given some activities. We also saw some experiments done using Nitrogen. It was so fun to see. We learnt to check the temperature and also learnt different ways to change temperature like using blankets, putting stuff in water. It was fun day.

Ammaar Shahzad

Aboriginal Show

Year 3 Excursion: Sea World

Year 3: Life Education Van

In Term 1 our class visited the life Education Van. We learnt about healthy eating, importance of sports and good night sleep. In Life Education Van we met a giraffe called Harold. Harold is friendly giraffe who likes to play with kids. If we were good listeners we got to pat Harold.

Aliyaa El- Hajj & Fatimah Ali, 3D

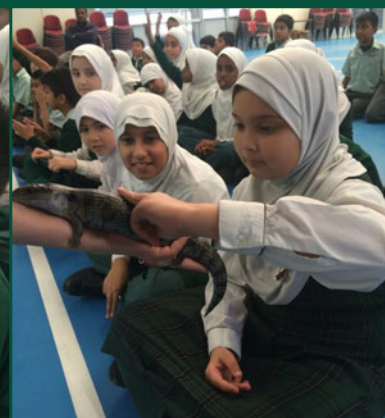

Year 4: Currumbin Sanctuary

On July 19th in term 3 all the year 4 students had a wonderful opportunity to meet some of the animals from the Currumbin Wildlife Sanctuary. Two of the staff members came to visit our school and told us very interesting information about the life cycles, habitats and characteristics of the animals they brought along.

They showed us the Australian and German cockroaches. Then the ladies told us about the blue-tongued lizard and then everyone had a turn to gently stroke it. Then they showed us the barking owl however, he was too shy to bark.

Then we saw the saltwater crocodile who had his mouth tied shut. We got to pat his back and his soft belly. At the end, we all gently patted the carpet python on our way out. We all enjoyed our Incursion at Currumbin Wildlife Sanctuary.

By Ahmad Suleman, 4B

Year 4 Excursion: St Helena Island

The weather on May 30 turned out absolutely perfect for our Year 4 historical adventure to St Helena Island. We began the day with a bus trip to Manly to board our boat, the Cat 'o' Nine Tails, named after the cruel whip used to punish the St Helena convicts. For some students it was their first time aboard a boat so they were very excited. Once on board, we met our funny and entertaining tour guides, dressed in their convict and guard outfits. The boat ride took about half an hour. When we reached the island we ate morning tea and then lined up to begin our trek around the historical sites.

First we learnt about the traditional owners of the island, the Quandamooka people, and its Aboriginal name, 'Noagoon Island'. We then walked up a track to look at the museum and remnants of the old prison buildings. Our guides told us some fascinating stories about the St Helena Island prisoners and how tough their lives were.

Everyone especially loved the punishment enactment that our guides performed and couldn't stop laughing. At the end of our tour, we sat down to eat lunch before boarding the boat back to mainland. Our students, teachers and parent-helpers all had a great day out and learnt a lot of interesting facts about convict life in colonial times.

By Ms Unicomb

Year 5s Excursion to Australia Zoo

On Thursday 15th September, the Year 5 Teachers, students and five parent helpers went to Australia Zoo. We arrived at the Zoo at 9.00am and immediately we were given a talk by Jackie, one of the educators at the Zoo. She taught us about different adaptations that animals have which help them to survive as we have been learning about this topic in class at school. We touched a Woma Python and a Blue tongue lizard. Next, we went to Bindi's Treehouse and saw a tortoise and snake. Straight after that we saw Scout the tiger. After walking through the South East Asia Zone, we went to the African area. We then waddled through Roo heaven and enjoyed a show in the Crocoseum. We spent the afternoon investigation other eares of interest before alighting the bus ready to go back to school. We loved the zoo, it was amazing!
Sadiq, Fawad, Abdirahman

Year 4 incursion: Science Street

On May 3, in term two, Street Science came and taught us how to make mini rockets that blasted high up into the sky. To make it go in the sky we mixed water with a special chemical tablet. We also learned about gravity, forces and what they do. At the end we did a Mega blast with everyone's mini rockets. That was everybody's favourite part. We got to take our rockets home. We also received bands and a little card which had the ingredients to make a chemical tablet. One boy suggested we could use cola and Mentos as the fuel. It was awesome making our very own rockets.

By Ahmad Suleman
Deshinta Nuryana-Brown, 4B

Year 6 Incursion: Street Science

Street Science held a science incursion for Grade 6 in Term 1. Students learned about 'Chemical and Physical changes' and 'Fair Testing'. Various hands on activities were conducted and the students engaged in inquiry based learning. They made artificial snow flakes and goo. The workshop was a great learning experience, full of fun activities.

Year 6 Excursion: Winter Camp

39 students and 4 teachers ventured on their journey to the Tallebudgera Beach Camp on the 25th of July this year. The philosophy of the camp was to develop independence and self-growth by embracing the five principles, co-operation, confidence, organisation, persistence and resilience. All problem solving activities were based around team work and positive communication. The highlights of the trip were the water based activities like Body Surfing, Surf Awareness and Kayaking. Rock Climbing a 10M wall was another activity that the students enjoyed. Most of them accepted the challenge and reached the top of the wall. Also a morning walk by the beach was very refreshing.

This was the most memorable time of our lives and we will cherish it in the years to come.
Grade 6 students!!

Environmental Committee's Trip to Tangalooma EcoMarines Day at Moreton Bay

Our names are Shaakirah, Fatima, Wajeeha and Esa and we are ICB's Tangalooma EcoMarine Ambassadors. On August 19, we had an amazing opportunity to visit Moreton Island. We got to meet all of the other ambassadors from schools around Brisbane.

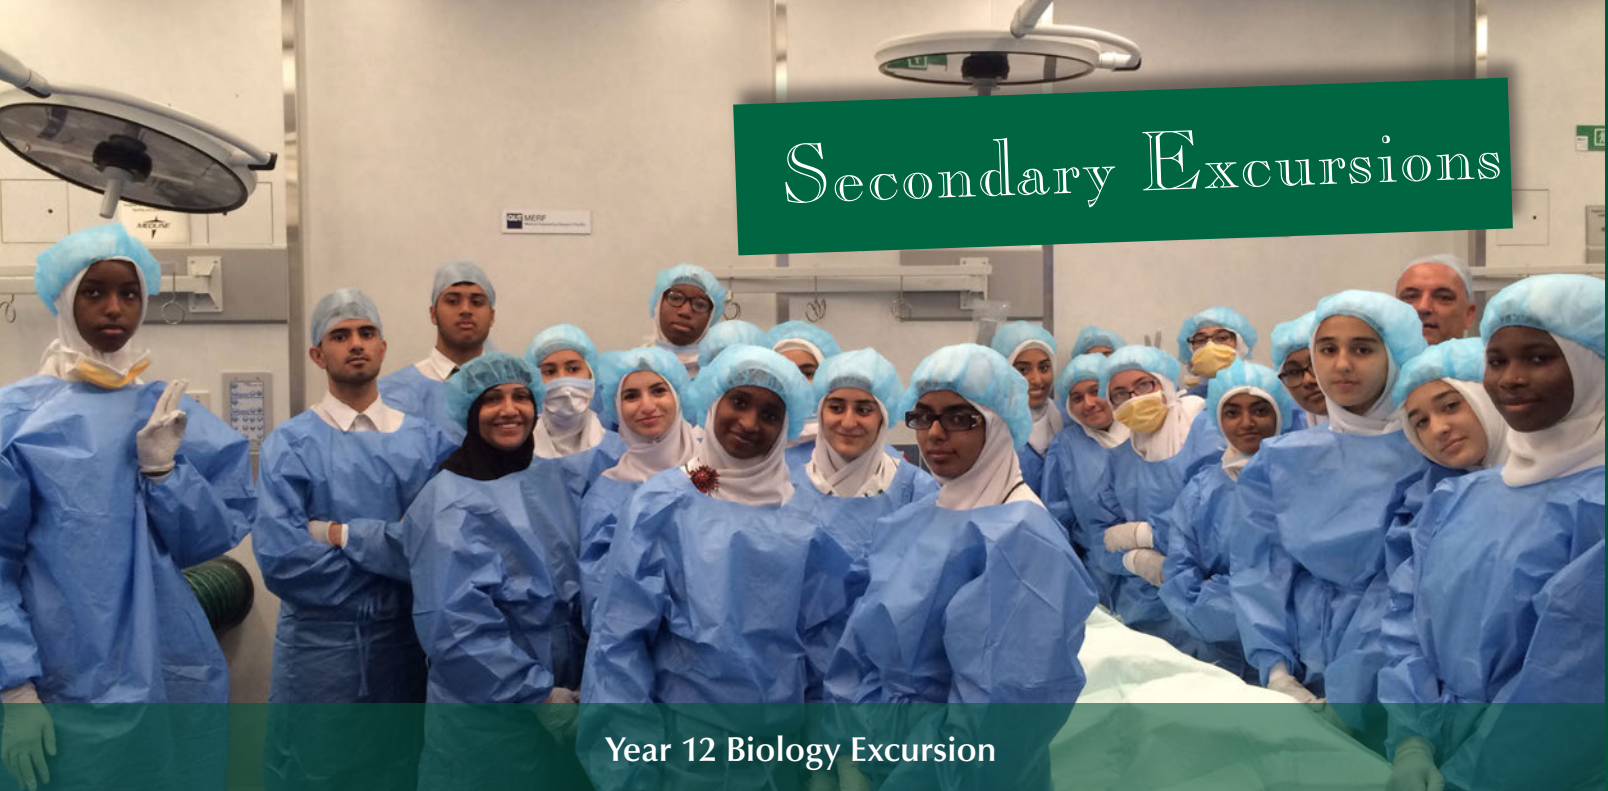

On the day, we learnt some interesting facts about Moreton Bay and its precious marine life. Sadly we discovered that turtles, dolphins and other marine creatures are dying because of polluted water and plastic litter in the ocean. We were astonished to find out that by 2030 scientists predict that there will be more plastic in the ocean than marine life.

We prepared a special video presentation to show the other schools what we do to care for our environment at ICB. Everyone really enjoyed watching it.

We had an incredible time on the beach at Moreton Island. We met some of the local Parks and Wildlife rangers, did some planting on the sand dunes and even got to feed the wild dolphins.

MY Poem

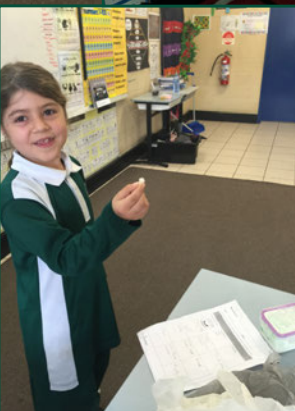

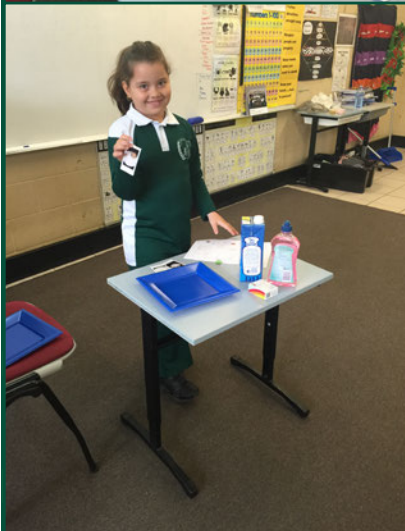

I'm telling on you.

I'm telling on you because you did a pose.

Guess what you were too close
that you punched me in the nose
without saying sorry. Oh! Then you dreaded me with a
hose

I suppose nobody knows.

By Haqeen Ayman, 2B

Exemplars Year 3

Aboriginal Incursion

The first thing we did was we got into groups. Then two girls and two boys had a chance to get aboriginal style face painting done while the man was telling a story. After that we played aboriginal music, the boys were playing the didgeridoo and the girls were playing aboriginal sticks. Finally everyone got to throw a boomerang and attempt to make a fire just like aboriginals. It was a very interesting and fun incursion.

By Khadijah and Shireen

Ramadan Party

Grade three had a Ramadan party. We invited Dr Barrett, Mr Sharif, Mrs Ashraf and the Imams. We made colourful Ramadan cards for Syria. The party was to celebrate the end of Ramadan. We brought party food to share which was yummy. Mrs Goss made a Ramadan Quiz and prizes were given out to the winners. It was lots of Fun!

By Ruhmaa and Manha

Roald Dahl Book Week

All of primary participated in book week by dressing up however Grade 3 classes were lucky because we got to participate in some fun Roald Dahl themed activities. One of the fun activities included designing a book cover for our favourite Roald Dahl novel. A winning design from each class was chosen and the winner received a certificate and prize. We also had a Roald Dahl Quiz done by Ms Goindi and the students who answered correctly won chocolates. YUM!

By Madihah and Maryam

Terrific Tuesday

During Term 3 all of the year 3 classes participated in Terrific Tuesday. Every Tuesday we enjoyed competing against each other to see which class had the healthiest lunch boxes. The class with the most amount of fruit and vegetables won an award and an apple trophy.

By Namira and Salwa

Sea World Excursion

This year the year 3s went to Sea World and we saw an educational dolphin show that taught us so many interesting facts about dolphins. We also saw lots of other marine animals that we have been learning about for our information reports and of course, before we left we all got to enjoy some fun rides. We had lots of fun and learned a lot!

By Lily & Soha

Big Bang Science Incursion

In Term 2, year 3 classes had a Big Bang Science Incursion. It was very fun, interesting and educational. The presenter was a scientist who did some really amazing experiments with us and one of the experiments even went BANG!

Students got to test and experiment with different states of matter and learn more about solids, liquids and gases.

By Almaaz and Wafiq.

Exemplars Year 4

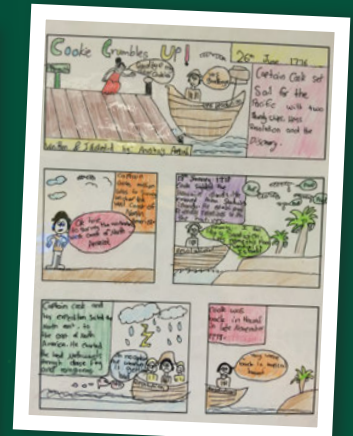

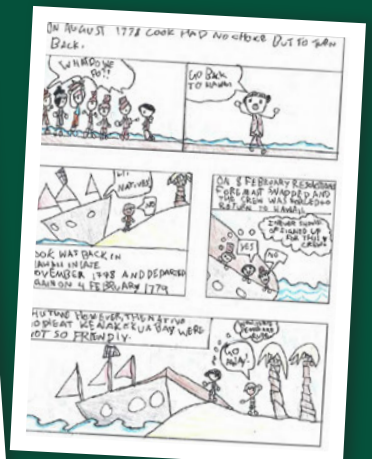

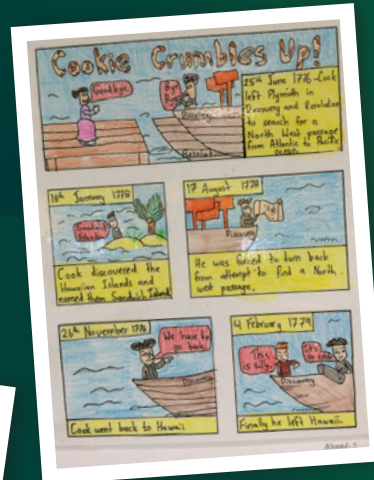

Mice at play

By Muhammad Ali Ahmad, 4B

OMG! There was a mouse in my house,
He was extremely wheekey,
And also very squeaky.
LOL! He sailed come mice,
To eat my cooked scrumptious rice.

They climbed up the cable,
To get up the table,
They saw the yumish rice,
Squeak! Squeak! Went the mice.
A person appeared and looked at the rats.

He grabbed his bangy bat,
And smack! No more rats.
No more mouse in my house,
Said the owner of the mouse.

The Upside down Town

By Azra Ikhwan, 4B

There was a seal named Barny Bird,
And a bird named Sally Seal,
Their names are quite absurd,
Their names are quite unreal,

They lived in the land of Upside down,
Where everything was turned around,
From the three headed dog to the six headed Zound,
My what a funny little town!

Trees go buzz up in the sky,
While clouds are floating down,
How I would like to try,
To turn them all around!

Quacks duack, crows froake,
Blickerns Chuck,
And they all nake moise!

By Abdullateef.

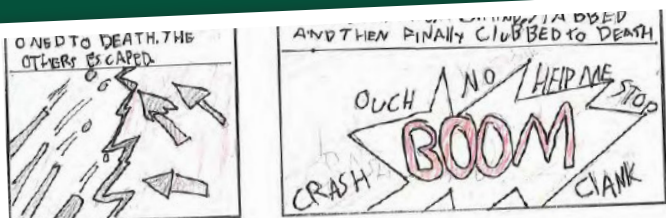

POP ART 4A

This term we looked at Pop Art, it was fun but also difficult. We still managed to get through it.

These are some of the artists that we looked at in Pop Art, their names were, Roy Lichtenstein, Jasper Johns and the most famous of all, Andy Warhol. We made our own Pop Art by using contrasting colours. Some of the images we used were, Elsa, Mario, Scarlett Overkill, Minions and Iron Man.

Ms Ackland hung them outside our room. They looked really cool!

By Khadija Mokrani and Ruweyda Yusuf 4A

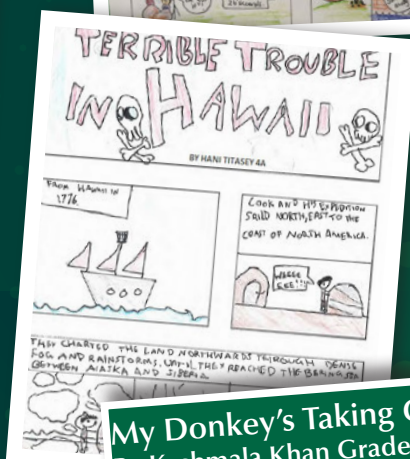

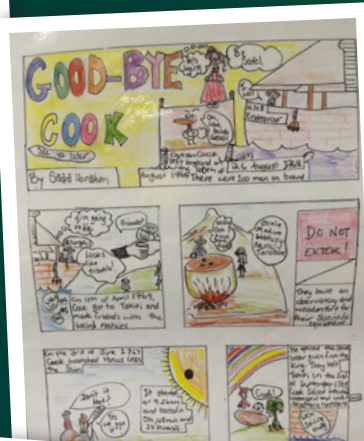

Donkey Lady By Sarafina Hunter 4A

Kashmala thinks she's a donkey,
She tries to tell us she is,
Her brain is really quite wonky,
And filled to the top with fizz.

She never shaves, so she's hairy,
She eats lots of grass for lunch,
She pulls a cart to the dairy,
With a carrot she's retying to munch.

Her ears are too small so she pulls them,
The get larger and larger each day,
She lives in a field down by Bloobden
And sleep ion a soft bed of hay.

So if you see Kashmala,
Down in her field one day,
Why don't you give her some sugar?
For a donkey she going to stay!

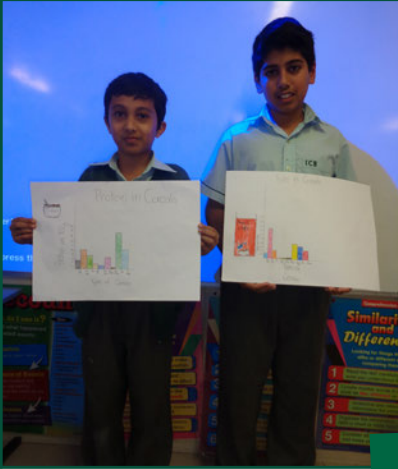

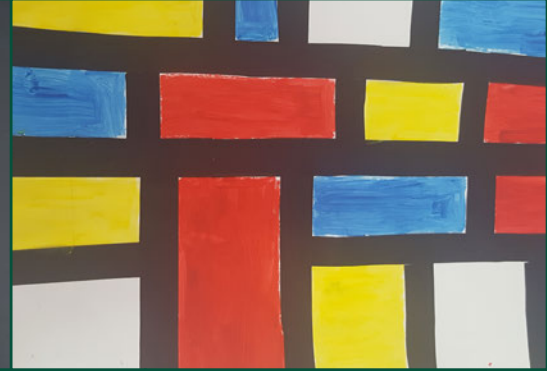

My Donkey's Taking Over the World By Kashmala Khan Grade 4A

My donkey has no eyes,
So she's led around by pesky flies,
Who ALWAYS tell her lies, and please don't ask them why.

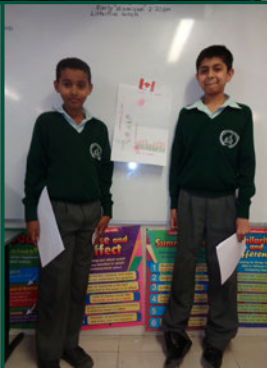

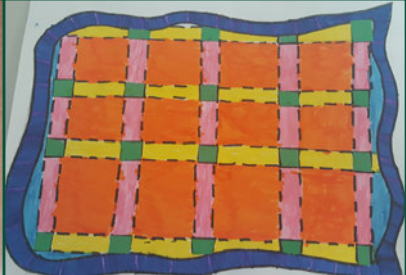

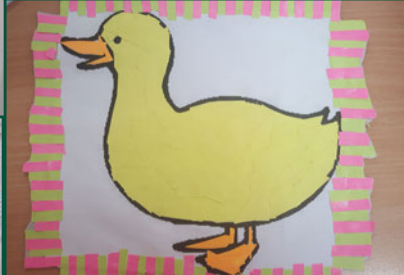

BOOM! The world is ending soon!
My donkey will take it over,
The only thing that'll stop her is,
A super-rare 4-leaf clover.

I'm sure the SiclySocky is her sidekick,
I'm very sure of it,
And of you find the clover,
There's no need to fear.

Exemplars Year 7

Exemplars Year 8

In August all Year 8s travelled to the beautiful beaches of the Gold Coast to undertake coastal management fieldtrip. It wasn't without its hiccups as the day started with uncertainty due to storm conditions that hit the coast. Thankfully the trip still went ahead.

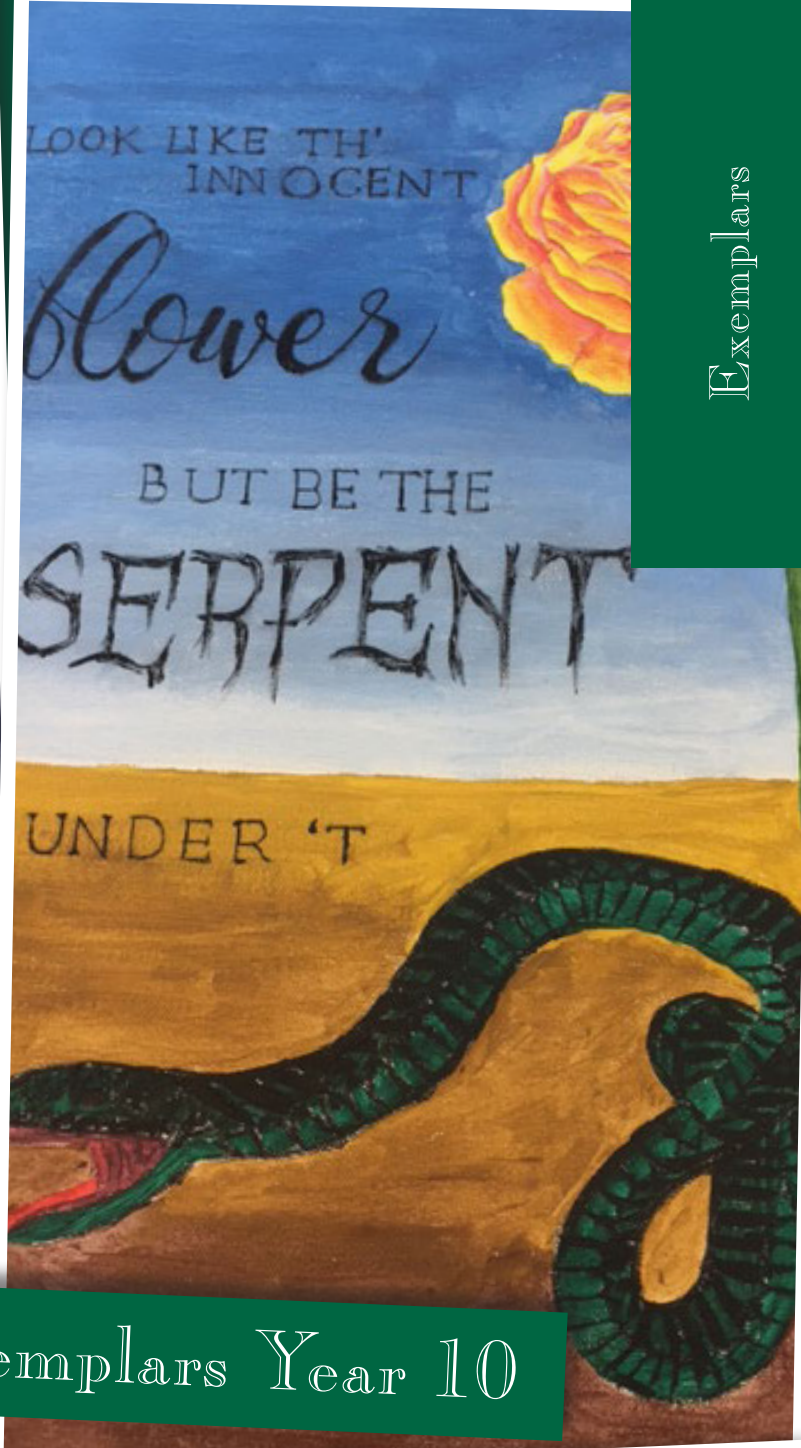

Whilst on the pristine beaches of Palm Beach students witnessed firsthand the ferocity a storm can have on a beach. Huge sections of the littoral zone had been washed away caused by destruction waves and powerful winds. Split into teams and with geography kits in hand work commenced on measuring wind speed and direction. Wave height was measured and flora and fauna all noted. The beach was unusually quiet due to the destructive waves and the windy conditions. Not a surfer swimmer or dog walker was in sight.

Next the group hopped on the bus and took a short trip. Near the Gold Coast City Council (GCCC) have created an artificial reef. Not only does this reef attract tourists who wish to dive or snorkel, it also protects the beach from pounding waves. This is just one of the coastal management processes the GCCC have in place to protect the coast from erosion.

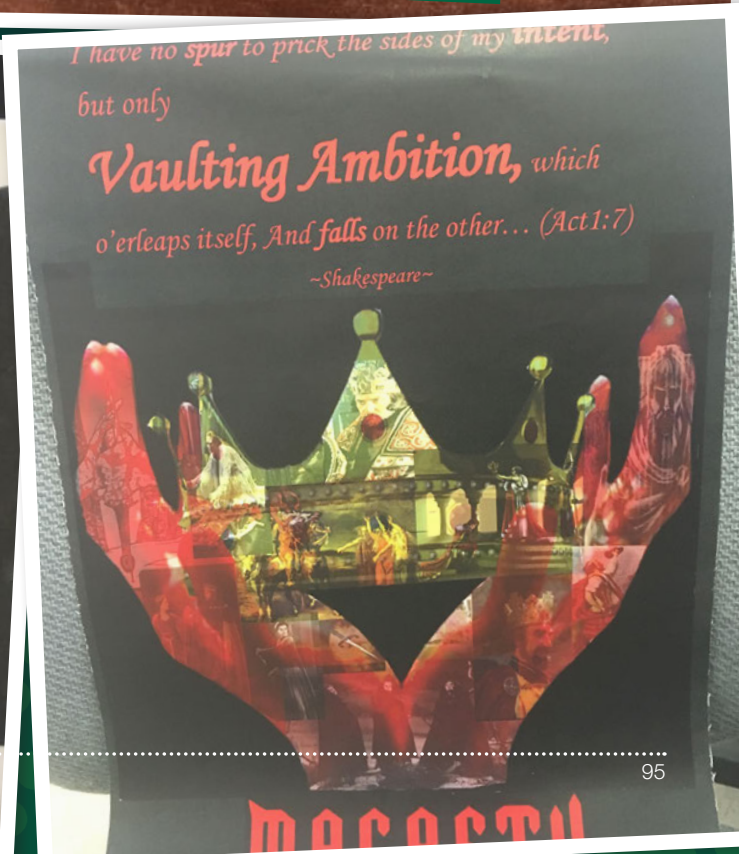

Finally, the last stop was at the Spit. Again observation of wind speed and direction were noted and flora and fauna identified. The main reason for visiting this site was to see the Beach Nourishment Plant. The aim of beach nourishment is to protect beaches against storm damage and to protect life and property. Sand is pumped and cleaned from the Spit and transported via huge pipes over to South Stradbroke Island. There are a number of benefits achieved from beach nourishment projects such as a wider beach which obviously facilitates more activities. And let's not forget beautiful beaches keep the Gold Coast on the tourist map.

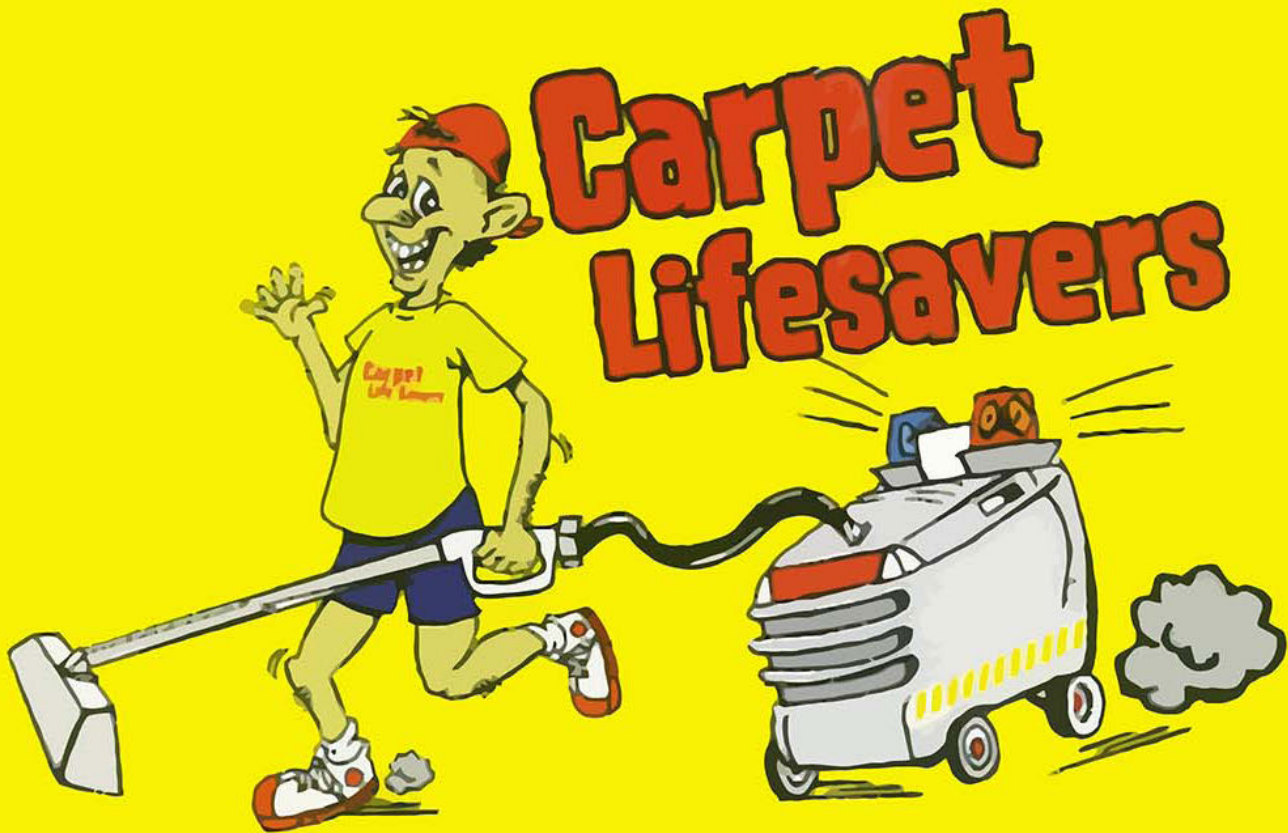

On the way home Grade 8s chirpily talked about their busy day and how they couldn't wait to collate all their primary data into a report.
